20/(1		from Templin and presence of units of the 6th Gds Mecz Div at Bernau and
		Bad Freienwalde again are confirmed The pre-
		sent report again confirms that contingents of the division were employed
		in the East Berlin area.
		The truck observed at the Nordbahnhof belongs to this division. The mmercus
		loadings of troops on and after 18 June 1953 indicates that large contingents
		of the troops of the Fourth Gds Mecz Army stationed at the Templin troop
		training grounds returned to their home stations as a precaution.
		. The new tank model observed at Templin was previously ob-
